CURRENT STATUS

Status Overview: CloneWorks has successfully launched Volume 1.0 and transitioned from concept to commercial validation. The platform has undergone stress testing, beta testing, and live pilot deployments. Today, the MVP is approximately 19% complete and actively serving paying subscribers across multiple markets.

Our first commercial offering focuses on contractors and service-based businesses through subscription packages designed to automate customer acquisition, communications, scheduling, and operational workflows.

VOLUME 1.0 PRODUCT OFFERINGS

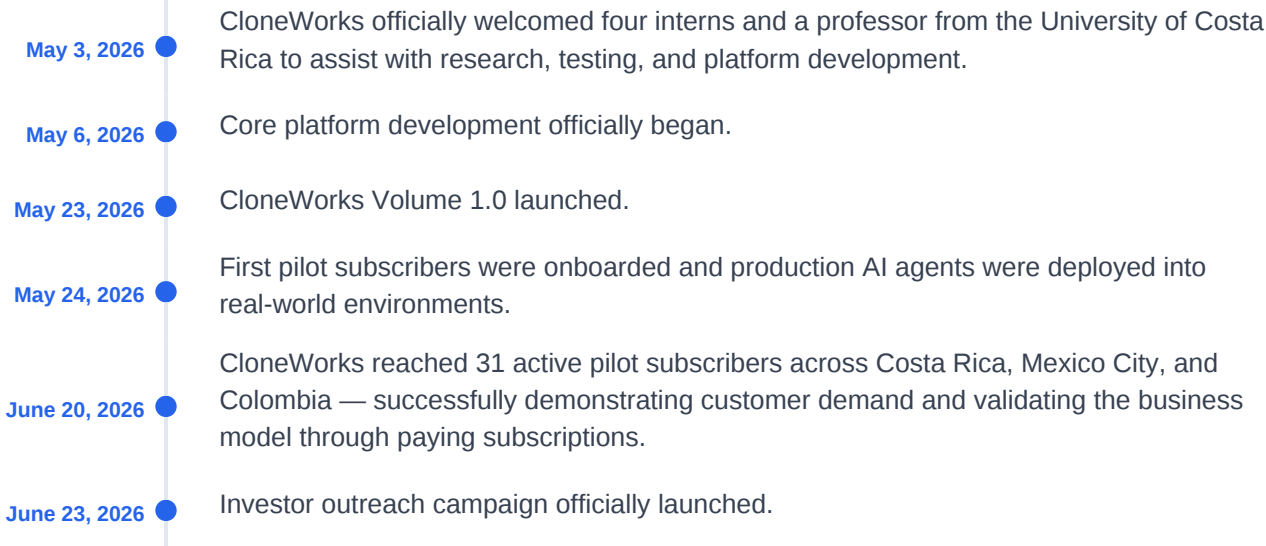

Launch	Essentials	Growth	Enterprise
› Template-based digital presence › Small business focused › Fast deployment	› Custom websites › AI Inbox & Chat › Reputation management › Lead automation › Social media management	› Everything in Essentials › AI Voice Agents › Advanced business intelligence › Expanded automation	› Full CloneWorks ecosystem › Autonomous AI agents › Marketing CRM › Advanced integrations › Premium support

INFRASTRUCTURE COMPONENTS COMPLETED

✓ Observation Layer ✓ Agent Cloning Framework ✓ Customer Onboarding System ✓ AI Inbox Automation ✓ AI Voice Agents	✓ AI Chat Agents ✓ AI Blog Generation ✓ AI Email Automation ✓ AI Web Design Systems ✓ Multi-Agent Workflow Architecture
--	---

These systems form the foundation of CloneWorks' long-term vision of digital workforces and autonomous business infrastructure.

KEY MILESTONES ACHIEVED

INFRASTRUCTURE TRANSPARENCY INITIATIVE

Real-Time Investor Visibility

Initiative: To maintain transparency throughout our Pre-Seed fundraising process, CloneWorks is integrating Tally.so directly into the Investor Relations ecosystem. This infrastructure will provide verified participants with visibility into fundraising milestones, allocation tracking, investor participation, and round progress.

Our objective is to establish operational transparency from the earliest stages of company formation. All investor updates and milestone reports are accessible at clone-works.com/investors.

STRATEGIC DEVELOPMENT

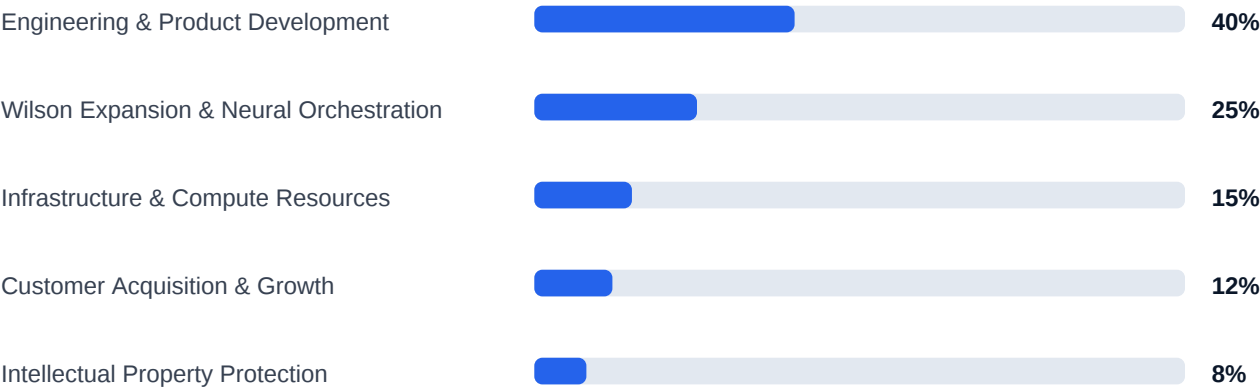

Brand Launch

The CloneWorks brand launched simultaneously with the commercial launch of the company, establishing unified market identity from day one.

Strategic Relationships

CloneWorks has established strong early signals with venture capital firms, accelerator programs, strategic advisors, and industry leaders. We continue expanding relationships that can accelerate product development, customer acquisition, and organizational growth.

USE OF CAPITAL

ROADMAP

Current Phase

- ✓ MVP approximately 19% complete
- ✓ Production environment active
- ✓ Paying subscribers onboarded
- ✓ Commercial validation achieved
- ✓ Infrastructure architecture established

Phase 2

Post-Funding Objectives

Upon completion of the current financing round, CloneWorks intends to accelerate development toward a significantly expanded platform capable of supporting large-scale deployment of cloning agents and digital workforces.

- › Expanded engineering team
- › Enhanced orchestration systems
- › Increased infrastructure capacity
- › Enterprise deployment capabilities
- › Larger-scale customer onboarding

Phase 3**Platform Expansion**

The next phase of development focuses on transforming CloneWorks from a collection of intelligent automation tools into a complete operating system for digital labor.

- › Advanced cloning agents
- › Multi-agent collaboration systems
- › Cross-platform orchestration
- › Enterprise workflow automation
- › Autonomous business process management

Phase 4**Scaling Platform Adoption**

CloneWorks is building toward broad enterprise adoption by creating repeatable deployment frameworks that allow organizations to rapidly implement digital workforces.

- › Expanded enterprise sales efforts
- › Strategic channel partnerships
- › Industry-specific deployment packages
- › Increased automation capabilities
- › International market expansion

Phase 5**AI Infrastructure Ecosystem**

Long term, CloneWorks intends to develop a comprehensive AI infrastructure ecosystem that connects organizations, digital workers, autonomous agents, and orchestration systems through a unified platform.

- › Unified orchestration layer
- › Global deployment infrastructure
- › Advanced AI research
- › Enterprise partnerships

FUTURE FINANCING STRATEGY

As platform adoption expands and development milestones are achieved, CloneWorks anticipates pursuing additional financing opportunities to accelerate growth and infrastructure deployment.

- › Global expansion
- › Engineering growth
- › Infrastructure scaling
- › Enterprise customer acquisition

- Advanced AI research and development

Long-Term Vision

CloneWorks believes the next generation of organizations will operate with hybrid workforces composed of both human talent and intelligent digital workers. Our mission is to build the infrastructure that enables that future.

The infrastructure layer between organizations and artificial intelligence.
